Hi Laurie,

I also did not review the report, shame on me. I'll check in with Ben tomorrow to get his comments and review the document myself. It may not be tomorrow as I have a pretty full day.

Thanks,

Jo

Jo,

We did receive the "supplemental report" (Deschutes) in late October (see email below). I didn't look at it!

It might be worthwhile for us to check in with Ben – and here what his comments were...? Have you worked with Ben (if not, feel free to just pick up the phone and call him - - he's great to work with!).

I'm still planning on looking at this tomorrow.

Cheers,

Laurie

Jo and Laurie:

Attached is a draft, advance copy of the Budd Inlet supplemental report (we've told you about this, right? My Friday afternoon memory is quickly fading). I just sent a copy to Squaxin tribe for their review, and we'd like your review as well. This is NOT a TMDL, but a supplement to the 2012 technical study based on all the information we've presented since then at the advisory committee. If you are interested, take a look. Otherwise, you'll get another version with the advisory committee in a couple weeks. Let me/Lydia/Mindy know if you have questions.

Scott and Erica:

Attached is the draft, advance copy of the Budd Inlet supplemental report as we discussed earlier this week. Take a look at it and send any comments to Mindy Roberts. We are still in an internal review, so you'll probably notice a few typos. This report supplements the 2012 technical report (it is not a TMDL, but will help inform the future TMDL).

We will share a draft with the advisory group the week of November 17. We will discuss it at the advisory group meeting on November 20. If you have any significant comments, send those to use as soon as possible.

If you have any question about the report, let Mindy, Lydia, or me know. Thanks!
